NSP Stalker Counter Surveillance Teams

NSP Stalker Counter Surveillance Teams are one of the most efficient and cost effective ways to keep high profile clients and their loved ones safe.

Our agents work closely with your client’s existing security team to:

1. Resolve existing threats
2. Pro-actively counter potential breaches

Your client’s security receives regular intelligence reports informed by covert surveillance and our pro-active investigations. Additional agents are available to support your existing team on demand if necessary.

Our back end team includes some of the nation’s foremost authorities on the issue of stalking and celebrity client protection. A broad range of resources, internet data and specialist agents can be called upon as required.

We are truly a ‘one-stop-shop’ for all your stalker protection requirements.

NSP Services

Each assignment is unique - typical services include:

1. Threat profiling
2. Risk assessment
3. Threat surveillance and warnings
4. Tracing and tracking

5. Liaise with the Police and ensure timely responses (e.g. quick reaction ref. no.)
6. Legal advice and support

NSP Operatives

Our demographically diverse team includes agents of both genders - all experienced surveillance operatives, CRB checked and trained in Close Protection to SIA standards.

Additionally all operatives are qualified to brief your Security Manager and / or Legal Agencies.

Seamlessly integrating with your existing team, our operatives are rotated on a regular basis to maintain the covert nature of our operations .
